

CONSOLIDATED LAUNDRY MACHINERY

TOWEL FOLDER

MODEL SPF-1

FEATURES:

- MicroCommand™ microprocessor control
- Heavy Duty, durable construction
- Capable of folding faster than your operators can feed
- Accurate, automatic item measurement

CLM towel folders can help increase your plant's productivity.

Designed for high production and minimum floor space, CLM's towel folders are ideal for high output plants and are capable of folding faster than your operators can feed them.

To install an SPF-1, simply wheel it into your plant on its heavy duty locking casters, hook it up to your electrical and air supplies and it is immediately ready to be put to work. The sophisticated, specially designed MicroCommand™ microprocessor control features an easy-to-read LED alphanumeric display that uses plain English to lead the user through all programming and folding operations.

And using a CLM towel folder is very easy. Simply choose a folding program using the MicroCommand's™ 16-key keypad and feed items into the machine. Items are automatically measured, French folded, and stacked to a pre-determined quantity.

If you're ready to increase the speed, quality and reliability of your folding department, call CLM. And put the high production CLM SPF-1 to work for you.
