

# CONSOLIDATED LAUNDRY MACHINERY

## SHUTTLE CONVEYOR

Shuttle conveyors also come in a horizontal configuration.

Shuttle conveyors automatically unload washers and load multiple dryers.

CLM's Shuttle Conveyor system is the ultimate in plant material handling technology. No other material handling system is capable of more efficiently loading and unloading your washroom equipment than the CLM Shuttle Conveyor.

Available in a variety of capacities, our shuttle conveyor system includes all necessary controls to automate and integrate your washroom.

Once installed, the CLM Shuttle Conveyor traverses your washroom to unload multiple washer-extractors and load multiple dryers, thereby easing plant congestion and reducing worker injuries.

The CLM Shuttle Conveyor is available with manual controls or with semi-automatic or full-automatic controls. Shuttle Conveyors are capable of fully interfacing with the microprocessor controls on all of your washer-extractors and dryers for completely automated operation of all loading and unloading operations.

### FEATURES:

- Unloads multiple washers and loads multiple dryers
- Smoothly and quickly moves into and out of position
- Available with manual controls or semi- or fully-automatic MicroCommand™ microprocessor controls
- A variety of capacities are available
